

# Circle Jerks, Question Authority

question authority  
have they the right to say how it should be?  
should one man be able to write it all down?  
when half the time he can't tell right from wrong

question authority  
another mans law is not right for me  
another lie to bleed my sympathy  
another time there will be no pitty

is this what you wan to see?  
is this the way you want things to be?

question authority  
i'll pay the price the future belongs to me  
this is the time  
this is the hour  
the worlds our dowery  
the glory and the power

is this what you wan to see?  
is this the way you want things to be?  
things to be,things to be  
question authority...
