

# Circle Of Dead Children, The Buzzard Blizzard

Abort the brain fetus  
and force-feed it to your teachers and families  
The lies they taught you were to be defecated  
and spread into the soil  
where a new generation of mirror-children would feed  
The mind you have is plagiarized  
A worm feeds between your eyes  
Genetic reservoirs are computerized  
Tomorrow the shit will feed upon the flies
