

Circle Of Dust, Chasm (Version 2.1.0)

Lost among the recesses of the undefined
Ethereal psychotic haze
Seemingly endless is the fall
No stable memories to recall (you came and took the rest of them)
No sure warning ever heard
"You are fragile";
When you expect the pain
Nothing more to ascertain
When you respect the lie
Deadly chasms open wide
Victim of the killers seething
In the deepest mind
Ever existing out of phase
Steadily falling out of line
No trace of living left to find (You came to make me one of your kind)
No sure warning ever heard
"You are fragile";
When you expect the pain
Nothing more to ascertain
When you respect the lie
Deadly chasms open wide
Don't leave me here
Please don't leave me here
Gave me so much to fear
You've left me with such pretty scars...
No sure warning ever heard
"You are fragile";
When you expect the pain
Nothing more to ascertain
When you respect the lie
Deadly chasms open wide (You are fragile)
When you expect the pain (You are fragile)
Nothing more to ascertain (You are fragile)
When you respect the lie
Deadly chasms open wide (You are fragile)
Deadly chasms open wide (You are fragile)
Deadly chasms open wide (fragile)
