

# Circleslide, Get Up

What if I told you I wasn't ready for this life  
What if I told you this wasn't what I had in mind  
What if this mountain's just too high

Get up get up  
brush off the dust from your soul  
Get up get up  
the past is beyond your control  
Get up get up  
don't ever give up on love

What if I told you my whole world broke down last night  
What if showed you my surprising ugly side  
What if I've fallen out of line

What if I told you there was time when I believed  
What if I told you I'm exploding with doubt I'm infected with weakness  
I'm breaking the silence crying out, crying out
