

# Circleslide, Gravity

Who can restore me  
Back to what I should be?  
Who understands me?  
And all that I'm feeling?  
And when I'm falling  
Who's gonna catch me?

Makes me want to sing out  
Your love will never let me down  
Ruler of the stars  
You lift my heart to where you are  
This is why I sing out  
Your love will never let me down  
When you rescued me  
You broke the laws of Gravity

You have restored me  
You conquered and saved me  
You're my security  
When worlds are colliding  
I'll fly away with you  
Unshackled and set free

I Let go of the world to touch Your face  
The sunlight before me... sorrow behind me...I
