

Circleslide, Weather Boy

Ocean's raging
Planet dying
Poison in the sky
Pistols blazing
Missiles flying
Children wonder why

I can't believe it's over
'Cause love can endure the weather

C'mon, C'mon don't cry love, it's alright
C'mon, C'mon don't cry love, it's alright

Angels crawling
Hope is fading
Venom in the veins
Spirits falling
Hearts are breaking
The Devil has his day
