

# Cirkus Miramar, Safe A Place To Be

There's a little house in the countryside  
a place to be when you need to hide  
away from dull suburban skies  
you feel alive yet you ask me why  
-cos' strange is just a better place to be  
yeah strange would be the safest place to be

there's a holy mirror with Venetian blinds  
and a Persian rug for a test of time  
you speak out loud to a Freudian mime  
-Beware, my dear, she's a friend of mine  
-cos' strange is just a better place to be  
yeah strange would be the safest place to be

there's a motion picture of your innermost dream  
and the weather forecast turn sonic obscene  
when the soul presenter gets in between  
go paint it black as a summer theme  
-cos' strange is just a better place to be  
yeah strange would be the safest place to be

Let me take you to and beyond the sky  
you'll see the world through kaleidoscope eyes  
let me take you down and let me take you around  
down the strange ways of your mind  
yeah down the strange ways of the mind

The world is grey - a void of light  
let's spin a ride from black to white  
-that would be a place to be  
that would be a place to be

There's always up and there's always down  
let's go a state with sun inside  
-that would be a place to be  
that would be a place to be
