

# Cirque du Soleil, Do It Again

Do you remember what you said  
the very first time we ever  
kissed the stars with dancing  
in your eyes, that night  
when you first put your lips  
on mine, wasn't it perfect  
I can still hear the words  
you said they're ringing in my head  
after all this years  
Let's do it again!!!

Just a little bit more

Oh Baby, let's do it and then  
we'll do it even better than before  
and now let's go back to the beginning  
even though my head is spinning  
and my feet can't find the floor  
I just can't help it  
and for I want you even more

Kiss me, kiss me feels like i'm floating  
away and when you touch me, there is only  
one thing I can say:  
Do it Again

Just a little bit more

Oh Baby, let's do it and then  
we'll do it even better than before

Do you remember all those nights  
we stayed till the break of dawn  
making love under moonlite sky  
all night, waiting up for the sun to rise  
wasn't it perfect.

looking back after all this years  
and all we've been through  
can't get enough of you

couldn't it always stayed  
like this, every morning  
a brand new day  
wouldn't it be perfect

looking back after all this years  
and all we've been through  
can't get enough of you

couldn't it always be  
like this, you and me  
for eternity

wouldn't it be perfect  
looking back after all this years  
and all we've been through  
can't get enough of you  
looking back...  
looking back...
