

# Citizen Cope, More Than It Seems

Your so Pure (ah)  
Your heart is full of  
All i ever need  
And i cant take it  
I cant speak  
So i just sit here and stare

My adorer, let me tell you a story  
About someone in me  
Now its gunna be surrounding me

Break my silence

Yea its a little bit more than it seems  
We can make outside my dreams  
Yea its a little bit more than it seems  
We can make outside my dreams

My adorer, they say i dont know ya  
I sure do know

Sure do miss ya  
I can't take it  
I can't take it

My adorer, your heart is full of  
All ill ever need  
I cant take it  
I cant speak

Break my silence

Yea its a little bit more than it seems  
We can make outside my dreams  
Yea its a little bit more than it seems  
(We can make it) We can make outside my dreams  
Yea its a little bit more than it seems  
(We can make it) We can make outside my dreams  
Yea its a little bit more than it seems  
(We can make it) We can make outside my dreams  
Outside my dreams
