Citizen Cope, More Than It Seems

Your so Pure (ah) Your heart is full of All i ever need And i cant take it I cant speak So i just sit here and stare

My adorer, let me tell you a story About someone in me Now its gunna be surrounding me

Break my silence

Yea its a little bit more than it seems We can make outside my dreams Yea its a little bit more than it seems We can make outside my dreams

My adorer, they say i dont know ya I sure do know

Sure do miss ya I can't take it I can't take it

My adorer, your heart is full of All ill ever need I cant take it I cant speak

Break my silence

Yea its a little bit more than it seems
We can make outside my dreams
Yea its a little bit more than it seems
(We can make it) We can make outside my dreams
Yea its a little bit more than it seems
(We can make it) We can make outside my dreams
Yea its a little bit more than it seems
(We can make it) We can make outside my dreams
Outside my dreams
