

Citizen King, Under The Influence

now out past the cast of boredom cards get
dealt i sift and sort them table rooftops
coming down wooden nickels lost and
found apple pie i?m eating cake now
snake bites batteries from start to chuck got
coming to the table late now juke joint fights
highball holiday served fresh from a plastic
and diamond lights immune to poison ivy
the outer limits voodoo luck stand by on a
tray i?ve been around and up and down
under the influence tonight on the concrete
overboard when ship came down out of
pass nowhere fast is where i?m going like a
mind and sight in the strobophonic light i?m

on the glass beyond the neon green bus
day and eye to eye when these walls
crack that's slowly leaking juice on the floor
do a little less i take a little more time day to
become alive the sparkle helmet spins
names but worse with faces zig zag
around midnight streak in a twist top town
crystal clear through amber glasses bad with
wandering on the curve transparent mason
torch in a quiet storm so i'm searchin for the
dixon curves i've got more nerve than a tiki
third kind blast off and cut the cord
