

Citizen Soldier, Talk Me Down

It's 3am again
My mind is caving in
But no one's listening
But no one's listening
Bottles of medicine
My closest ... a friends
'Cause no one's listening
'Cause no one's listening

I'm on the edge of a crisis
But what should I make a sin
Is there any reason to fight this?
If nobody's losing sleep

My life's a ledge right now
Nobody knows about
There's no one to talk me down
There's no one to talk me down
So sick of reaching out
Silence is getting loud
With no one to talk me down
With no one to talk me down

No one, no one to talk me
No one, no one to talk me
No one, nobody to stop me
No one, no one to talk me down

These fights strike me away
Down to the darkest place
But no one's listening
But no one's listening
People I have to chase
[?] not worth the pain
'Cause no one's listening
One more pill and listen

My life's a ledge right now
Nobody knows about
There's no one to talk me down
There's no one to talk me down
So sick of reaching out
Silence is getting loud
With no one to talk me down
With no one to talk me down

Outrun to call in a crisis
Nobody's listen me
Is there any reason to fight this?
If nobody's listen me

My life's a ledge right now
Nobody knows about
There's no one to talk me down
There's no one to talk me down
My life's a ledge right now
Nobody knows about
There's no one to talk me down
There's no one to talk me down
So sick of reaching out
Silence is getting loud
With no one to talk me down
With no one to talk me down

No one, no one to talk me
No one, no one to talk me
No one, nobody to stop me
No one, no one to talk me down
