

City Of Mirrors, We Won't Die

Weird made up stories everyday
Singing and laughing in the rain
No I won't let it go away
The other day I realized
How many times you made me smile
And made my world more bright
My friends

Cause I've decided to rely
On everything
On everything we shared
Everything we shared

Standing together here as one
Going through worse or better times
Seems like a perfect plan for us
I've never been as happy as
Now that I've got you by my side
You made my world more bright
my friends

Cause I've decided to rely
On everything
On everything we shared
Everything we shared

Cause we don't want to be alone tonight.
And we belong right here, right now as one

Forget your sorrow, forget your pain
till we're together you don't have to be afraid

We'll fight our sorrow, we'll fight our pain
till we're together we don't have to fear a thing!

Nanananananana
Me and my friends we don't give up
Don't waste your time to mess around
Till we're together we won't die

Till we're together
