

City Sleeps, Be A Man

Whoa

And so she dances in your crystal ball

The ballerina of the baby dolls

Under a spell you only call her name

Only her answer can undo your pain

Her swirling hand is like a magic wand

It's gonna hurt this time the fairy dust is gone

Chorus:

Be a man

Don't let her do that to you

Be a man

Don't let her do that to you

She's a bad girl gets to cry all day

The darkness is the only place that you play

The broken veins from all your wounds are raw

Your not the only boy that waits for her call

Chorus

Oh well

She's on the dark side

She's on the dark side

Oh well

And it will neutralize

And it will neutralize

Chorus
