

CJ Stone, Into The Sea

into the sea
into the sea
into the sea
you dont understand the way i feel
you take my breath
loved the way until i met you
just go away and set me free
and let the time fill every space in me
break the overwhelming mountains over me
just get away and let me dive into the sea

(x4)

into the sea
into the sea
into the sea
into the sea
into the sea
into the sea
break the overwhelming mountains over me
just get away and let me dive into the sea

(x2)

into the sea
into the sea
