

Claire Rosinkranz, Never Goes Away

It never ever really goes away

My body's kinda sore
Motivation on the floor
The drama makes me bored but I heard he said shes a whore
I know thats kinda fucked up
Need a bandaid for his tongue
Simply insensitive
Your mouth is kinda dumb

Oh why cant you think before you speak oh
Why cause it never ever really goes away
All the things you do and all the things you say
So watch your mouth cause you can't really take back
All the things you do and things you say
Cause it never ever really goes away
Cause It never ever really goes away

Your words come out like glue
Like gum gets stuck on shoes
It's really sticky and it's really quite annoying too
Maybe it's just a little better living in your brain
Instead of spilling it all out and leaving a permanent stain

Oh why cant you think before you speak oh
Why cause it never ever really goes away
All the things you do and all the things you say
So watch your mouth cause you can't really take
back All the things you do and things you say
Cause it never ever really goes away
Cause It never ever really goes away
