

Claire Toomey, Harder

Here we are at the same place again
Looking for ways to cross bridges
And say what we really need to be talking about
Stop trying to keep your feelings inside
It does no good for us if you hide
I wanna' reach out for you
But I'm not sure if you want me to

Don't make it easier
Don't make it easier on yourself
The truth may be hard to tell
But the further we'll fall
If we don't face it all
Right now

The harder we'll hit the ground.
The harder we'll hit the ground.

Now you know that I won't run away
I'll be standing right here till you tell me
That it's here that you want me to stay
I'm making it clear
I won't be the one to push you aside
I'm here for the future not just for the ride
I wanna' reach out for you
But I'm not sure if you want me to

Don't make it easier
Don't make it easier on yourself
The truth may be hard to tell
But the further we'll fall
If we don't face it all
Right now

The harder we'll hit the ground.
The harder we'll hit the ground.

Are you hearing a word that I say?
I know I can't carry on this way.

Don't make it easier
Don't make it easier on yourself
The truth may be hard to tell
But the further we'll fall
If we don't face it all
Right now

It don't make it easier
It don't make it easier on yourself
The truth may be hard to tell
But the further we'll fall
If we don't face it all
Right now
