

Clannad, Let Me See

Let Me See

Let me see generation times
Will we hear children singing rhymes

Sweet memories gone by
They're gone by

Let me be wiser with my eyes
Let me see my love by my side

Let me see heaven

Lonely tears of searching the wilderness
How this world can lead us all astray
Don't let me cry over colourless pictures

No more bitter winds

No more troubled seas

Just forgive me

And let me see

Let me see my love

Let me see

Let me see my love

Let me see (Refren)

Crossing the room
I recognize the child in me
I'll close my eyes to release away all my fears

We silence the rose to see it blossom back again
Step by step we walk on
Word by word we talk on

Just forgive me

And let me see
