

# Clannad, Other Side, The

When it's gone and you want it so badly  
A game of love is a two way street  
And from above there comes inspiration  
Darkest clouds will disappear  
Take it down put it in your diary  
Come around to the pleasant side  
Put it down to another experience  
Come around to the other side  
Fallen words from a broken framework  
Touching hearts scribbled on a street  
And from above here comes inspiration  
Darkest clouds will disappear  
Take it down put it in your diary  
Come around to the pleasant side  
Put it down to another experience  
Come around to the other side
