

# Clark Family Experiance, Standin' Still

I was born feet first already in a rush  
I couldn't sit still for my first haircut  
By the age of twelve I was planing my big escape  
I aint never been afraid of plowin' new ground  
Nothin' nobody's gonna slow me down  
Life's never gonna happen if I let it all slip away

I'm gonna run barefoot through it  
Jumpin' over trouble like there aint nothin' to it  
Makin' my way even when it's all uphill  
Oh, your never gonnna catch me standin' still

Spent most of my time on the moon  
Sure broke my stride runnin' into you  
You blew right thourgh my heart like a hurricane  
I fell in love with you baby and I never looked back  
Your the only one to stop me dead in my tracks  
The chase was on when you said to me that day

I'm gonna run barefoot through it  
Jumpin' over trouble like there aint nothin' to it  
Makin' my way even when it's all uphill  
Oh, your never gonnna catch me standin' still

(gotta run)  
Never gonna stop me  
(gotta run)  
Baby you caught me

I'm gonna run barefoot through it  
Jumpin' over trouble like there aint nothin' to it  
Makin' my way even when it's all uphill  
Oh, your never gonnna catch me  
You aint never gonnna catch me  
Still never gonna catch me standin' still

(Standin' Still)  
You aint never gonna catch me

(Standin' Still)  
I'm Standin' Still

(Standin' Still)  
You aint never gonna catch me
