

Clarkesville, Secret File

You say
You're good at analysing
You never meant to criticise
And you're just trying to help
Well look into yourself
And say that all is well.

Show me your secret file on me
Why don't you tell it like you feel
All of the things you'd love to use to get at me
I'll bear it all for you to see.

I see
No concrete foundation
For anything you're saying
Who are you protecting?
Look into yourself
And tell me what you see.

Show me your secret file on me
Why don't you tell it like you feel
All of the things you'd love to use to get at me
I'll bear it all for you to see.

For you to see

And if you would feel
The same was as me
And let it be...

Look into yourself
And say that all is well.
