

Claude Kelly, Because of love

she was only fifteen
i see a lot of things in her life
trynna follow her dreams
she felt a lot of cold things and night
but she got a twinkle in her eye
always knew deep inside
she would be a star
that little girl was me
and she always believed in love
put all her faith in love
she knew one day that love
would give her everything she wants
now i walk because of love
nd i talk because of love
nd i'm me because of love
nd i got everything i want cause of love
ohhhh because of love
ohhhh
everybody gotta say
about the way she doing her thing
everybody tynna change her , her into something she ain't
you aint skinny enough (no)
you aint smart enough (no)
thats what they say
you aint pretty enough (no)
don't work hard enough
but she kept a twinkle in her eye
always knew deep inside
she would be a star (yes)
that little girl was me
and she always believed in love
put all her faith in love
she knew one day that love
would give her everything she wants
now i walk because of love
nd i talk because of love
nd i'm me because of love
nd i got everything i want cause of love
ohhhh because of love
ohhhh
and she always believed in love
put all her faith in love
she knew one day that love
would give her everything she wants
now i walk because of love
nd i talk because of love
nd i'm me because of love
nd i got everything i want
and she always believed in love
put all her faith in love
she knew one day that love
would give her everything she wants
now i walk because of love
nd i talk because of love
nd i'm me because of love
nd i got everything i want cause of love
ohhhh because of love
