

Claude Kelly, Little Miss Perfect

[Verse 1]

Im the most responsible girl that I know
Never late, Always on time for the show
Ask anyone around me and theyll tell you just how I am (yeah)
I try to tell the truth every chance that I get
I never let the work Im doing get to my head
And when it came to love I thought I gave it the best I had
But somewhere I missed
Somewhere I slipped
Somewhere theres a couple steps that I skipped
Somehow I told myself I didnt need anyone

[Chorus]

But look at me now
I was so busy telling everyone
How good life is now that youre gone
Now its so hard to be out on my own
So why do I feel so alone
How could I get this all wrong
I guess that little miss perfect wasnt that perfect after all

[Verse 2]

Now everything around me feels out of place
Like all four walls are closing in and theres no escape
Everyday spent without you it gets harder to act like Im okay
If I could take back the things that I said
If I could un-break all that we had
Id put all the pieces back together again

[Chorus]

Cause look at me now
I was so busy telling everyone
How good life is now that youre gone
Now its so hard to be out on my own
So why do I feel so alone
How could I get this all wrong?
I guess that little miss perfect wasnt that perfect after all

[Verse 3]

The world that I know is all crashing down
And its the biggest shock to me
Cause I thought I had it all figured out
So why does my heart feel empty

[Bridge]

I thought it was perfect
But it wasnt so perfect

[Chorus]

Cause look at me now
I was so busy telling everyone
How good life is now that youre gone
Now its so hard to be out on my own
So why do I feel so alone
How could I get this all wrong?
I guess that little miss perfect wasnt so perfect after all
