

Claude Kelly, She's Leavin' With Me

I get to the back of the line
(dunno)

But my baby sighed
But tonight shes gonna come with me
I don't care you can look if you want to
But don't get too close to
My girl doesnt want to, just flippen them not cool
And I see somebody to close to her body
Fuck you wasabi cause shes leavin with me

[Chorus:]

Guess your out of luck, it's too bad for you
You ain't got the stuff that she looking for
She leaving with me
Saved your lucky life cause you don't got a (fa? dunno lol)
Time to say goodbye cause she don't want you
She leavin with me

Woah she leaving with me

She leaving with me [x5]

You got her dressed up in fly
Looking at your babys tie, you could'ntback her up
But she chose her own chick tonight
Got already one

Don't like to repeat myself that much
So you better back up

Cause you'll never have her

I'm a bout to get mad cause

I see somebody too close to her body

Fuck you wasabi, cause shes leavin with me

[Chorus]

Don't buy my baby no drinks
And don't push up from behind
Don't ask if she wanna dance
Because if there's one, it is mine

Don't try to get her number

And she don't see yer

Don't even try to holla

Cause I'm the oe that's leavin with her

[Chorus]
