

Claude Kelly, Where I Went Wrong

There aint no words you can say
That can ever take back how bad you treated me
Let me finally? it all to rest
Let me go and let me breathe
Just give me my space, my time
I need to clear my mind
I need to figure out who to blame
You told me lies, but I took you back everytime
When I play you in rewind
I see my mistakes
Where I went wrong with you
I gave my heart, my mind and soul to you
Way too soon
That's where I went wrong with you (3x)
I gave my all to you
I put my love, my faith, my trust in you
Way too soon
That's where I went wrong with you (3x)
One thing you can not claim
Is that I never, gave you all the best of me
You got everything
I was the one begging you to love me, please
I can't believe that you
Want me to stay with you
After all I've been through
You must be crazy
You told me lies, but I took you back everytime
When I play you in rewind
I see my mistakes
Where I went wrong with you
I gave my heart, my mind and soul to you
Way too soon
That's where I went wrong with you (3x)
I gave my all to you
I put my love, my faith, my trust in you
Way too soon
That's where I went wrong with you (3x)
Where I went wrong with you
I gave my heart, my mind and soul to you
Way too soon
That's where I went wrong with you (3x)
I gave my all to you
I put my love, my faith, my trust in you
Way too soon
That's where I went wrong with you (3x)
