

# Claude King, Highway Lonely

Well I'm trapped in web of my own makin' all because your love was easy takin'  
You had me believing that I was the only one I didn't know you were only having fun  
I made a mistake when I went to your house  
You played with my emotions like a cat with a mouse  
You quit me cold and said we are through  
You put me on highway lonely goin' somewhere new  
Highway lonely oh where does it goes I've asked everybody nobody knows  
If there's anybody that wonders bout me  
I'm walkin' on highway lonely that's where I'll be  
[ piano ]  
I wish I could stop thinkin' bout you thinkin' of all the good times we've had  
But while I'm sitting here with all my thinking you're doing somebody bad  
Highway lonely oh where does it goes...  
I'm walkin' on highway lonely that's where I'll be
