

Claude King, Turn It Around In Your Mind

Turn it around in your mind turn it around and see what you find
Look at our love from my point of view see all the hurt I'm going through
Just turn it around in your mind turn it around in your mind

Every love has got two sides and a love just cannot live
One side always takes and never gives
Put yourself here in my place and just think how it would be
If I'd always hurt you like you've hurt me
Turn it around in your mind...

[steel - guitar]

You know that I'll always forgive you don't care if you're untrue
Cause you know I'll swallow all my pride for you
If you care for me at all then just picture if you can
How one side at our love looks from where I stand
Turn it around in your mind...
