

Claw Boys Claw, Edit Away

Faith, edit away, it's not important
Fever, edit away, it's where I stand
Another hour come and kill my where I stand
I had enough of you, I had enough of you

Fame, edit away, I say now I had enough of you
Got my eyes, my ears, my fingers, got my soul, the energy

Straight all my way and that's the only way I walk down my way
Here's where I fight, a lover told me not to come here, stay inside
I had enough of you, I had enough of you
Got my eyes, my ears, my fingers, got my soul, the energy
I got myself, that's all I got, while fire is in me

I had enough of you, I had enough of you
Got my eyes, my ears, my fingers, got my soul, the energy
I got myself, that's all I got, while fire is in me
