Claw Boys Claw, Edit Away

Faith, edit away, it's not important Fever, edit away, it's where I stand Another hour come and kill my where I stand I had enough of you, I had enough of you

Fame, edit away, I say now I had enough of you Got my eyes, my ears, my fingers, got my soul, the energy

Straight all my way and that's the only way I walk down my way Here's where I fight, a lover told me not to come here, stay inside I had enough of you, I had enough of you Got my eyes, my ears, my fingers, got my soul, the energy I got myself, that's all I got, while fire is in me

I had enough of you, I had enough of you Got my eyes, my ears, my fingers, got my soul, the energy I got myself, that's all I got, while fire is in me
