

# Clawfinger, Easy Way Out

Introspection self perfection  
Are you scared of your reflection  
Suicide is no solution  
Try to make your contribution  
Don't believe in resurrection  
You won't find the lost connection  
Life is only what you make it  
So decide if you can take it

There is no easy way out

Do you like the situation  
Can you take the penetration  
When you've made your reputation  
Take care of your own frustration  
Life is hard don't make it worse  
Don't tell me your life's a curse  
You can't regret the choice you've made  
If you decide what chords are played

There is no easy way out

Can you feel your own frustration  
Can you grip the situation  
Do you feel determination  
Do you feel the suffocation  
Do you feel the sterilization  
Do you feel the strangulation  
Don't say that you don't want to live your life anyway  
Don't say that you can't take another day  
Don't say nobody cares about you anyway  
Do you know what your friends would say
