

Clay Davidson, Come Rain Or Shine

We were green as grass when I took your hand
And the whole world held it's breath
Cause you don't look down when you step out on faith
Now I take pride that we've stood by
These sacred words we said
Even though it hasn't all been sunny days

CHORUS:

We've been eye to eye with a full fledged hurricane
Seen the water high and felt the winds of change
But like a rock we stood strong
Side by side through it all
Now we don't fear those cloudy skies
Cause baby you and I
Got a love come rain or come shine

I've placed the blame and you've cursed my name
And there were many times
Lightning cracked and thunder shook our door
I know our life ain't been some kind of perfect paradise
But baby we can weather any storm cause

We don't fear those cloudy skies
Cause baby you and I
Got a love come rain or come shine.
