

Clay Walker, Down By The Riverside

(Kim Williams/Clay Walker/Kent Blazey)

The wind was blowing through your hair
The moon was shining on your face
You looked like a picture sittin' there
And time stood still there in that place
The water was singin', our hearts were beatin' fast
Two high school lovers thinkin' it would always last
Down by the riverside on a warm summer night
We gave into passion for the very first time
We fumbled with love 'til we got it right
And we found heaven down by the riverside
Now you're nothin' but a ghost
That still haunts my memory
And you're always waitin' there
When I go walkin' through my dreams
There's no happy ending but I know our love will last
'Cause when I close my eyes you always take me back
Down by the riverside on a warm summer night
We gave into passion for the very first time
We fumbled with love 'til we got it right
And we found heaven down by the riverside
On a warm summer night
We gave into passion for the very first time
We fumbled with love 'til we got it right
And we found heaven down by the riverside
