

Clay Walker, Heart Over Head Over Heels

(Bob Regan/Jeff Pennig)

Straight up strong and steady

Hard falls I don't take any

Both feet right beneath me

Firmly on the ground

But each time I see you comin'

The earth moves

Girl you're somethin'

I start right into stumblin'

Catch me now

I'm heart over head over heels over you

Look at what I fell into

You throw me girl like a tumbleweed on a Tilt-A-Whirl

I'm all turned around, got my down side up

Either way it looks like what they say about true love's true

'Cause I'm heart over head over heels over you

I need you to hold me real tight

Next thing you know I just might

Break loose and I could fly right into the stratosphere

Oh girl, are you with me

Do you feel a little dizzy

This view is a thing of beauty

Way up here

I'm heart over head over heels over you

Look at what I fell into

You throw me girl like a tumbleweed on a Tilt-A-Whirl

I'm all turned around, got my down side up

Either way it looks like what they say about true love's true

'Cause I'm heart over head over heels over you
