

# Clay Walker, You Make It Look So Easy

I never thought it would hurt me so bad  
Seein' you look so good  
You're moving on and you're not lookin' back  
Just like I hoped I would  
How do you stop lovin' someone  
And turn what we had into nothin'  
I wish I could  
You make it look so easy  
The way that you got over me  
You act as if your leavin' was natural as the air you breathe  
You're so together while I'm fallin' apart  
You make it look so easy  
And that's what makes it so hard  
I've seen you out at at the places we went  
Dancin' with someone new  
You didn't take long to start livin' again  
After our life was through  
How do you let go of the good times  
With a wave of your hand and a goodbye  
I wish I knew  
You make it look so easy  
The way that you got over me  
You act as if your leavin' was natural as the air you breathe  
And you're so together while I'm fallin' apart  
You make it look so easy  
And that's what makes it so hard  
You make it look so easy  
And that's what makes it so hard
