

Claydee & Dave Audé, Te Quiero

I can feel the heat tonight
Make me wanna say te quiero
Girl I'm playing with fire
Yayo

When you put your hands in mine
Baby I just can't say no
Girl we're playing with fire
Yayo

I'm a sinner in the dark
Catch your eye with a spark
Got me going going hard
Take you higher

You can eat me a la carte
I'll take your rocket to the stars
Bet you never felt like this before
can't fight the fire

Paradise
Let me take you higher up
Paradise
Hold me close

I can feel the heat tonight
Make me wanna say te quiero
Girl I'm playing with fire
Yayo

When you put your hands in mine
Baby I just can't say no
Girl we're playing with fire
Yay

Can you handle the heat
When i back up my seat
And i move to the beat like
Ah yeah!

Can you handle the heat
When i back up my seat
And i move to the beat like
Oh yeah

I could be your queen of hearts
Push my button make it start
Listen boy i'm in charge
Higher like fire

Paradise
Let me take you higher up
Paradise
Hold me close

I can feel the heat tonight
Make me wanna say te quiero
Girl I'm playing with fire
Yayo

When you put your hands in mine

Baby I just can't say no
Girl we're playing with fire
Yayo

Can you handle the heat
When i back up my seat
And i move to the beat like
Nah yeah!

Can you handle the heat
When i back up my seat
And i move to the beat like
Oh yeah

Can you handle the heat
When i back up my seat
And i move to the beat like
Nah yeah!

Can you handle the heat
When i back up my seat
And i move to the beat like
Oh yeah

Tu amor es como el fuego.
Que calma mis heridas.

Vivir sin ti no puedo.

Te voy a dar mi vida.

I can feel the heat tonight
Make me wanna say te quiero
Girl I'm playing with fire
Yayo

When you put your hands in mine
Baby I just can't say no
Girl we're playing with fire
Yayo

Can you handle the heat
When i back up my seat
And i move to the beat like
Nah yeah!

Can you handle the heat
When i back up my seat
And i move to the beat like
Oh yeah

Can you handle the heat
When i back up my seat
And i move to the beat like
Nah yeah!

Can you handle the heat
When i back up my seat
And i move to the beat like

Oh yeah
