

Clazziquai Project, Speechless

Your skin your breath and I
Touch you with your thousand memories
And I feel your song smoothly into my ears
Can't take my eyes away from you

I'm speechless I gotta get to you and take your hands and kiss
I'm so sad and blind I feel no goal and where is my soul and sense
I'm speechless I gotta get to you and take your hands and say
I'm so lost but feel I make no sense and still cannot do anything

You live without me and then
My pain deep into my body and soul
And I cry so loud to send my mind away
Please wake up and then take my hand

I'm speechless I gotta get to you and take your hands and kiss
I'm so sad and blind I feel no goal and where is my soul and sense
I'm speechless I gotta get to you and take your hands and say
I'm so lost but feel I make no sense and still cannot do anything
