

Clearlake, Almost the Same

If I now admit I may have been wrong
And I never knew that we'd get along
It's hard to believe
Although now I can see
That you're almost the same as me

Well I never thought you and I would be friends
It only goes to show you can't tell how it ends
It's hard to define
Even now when I find
That you're almost the same as me
You're almost the same as me

If I now admit I may have been wrong
But I never knew that we'd get along
It's hard to believe
Although now I can see
That you're almost the same as me

Well I never thought you and I would be friends
It only goes to show you can't tell how it ends
It's hard to define
Even now when I find
That you're almost the same as me
You're almost the same as me
You're almost the same as me
