

Cleopatra, Number 1 Fan

You follow me every where I go
When I see you standing there
Every time I see your
You have my posters on your wall
Without a doubt you have them all
Inside your player is our CD
Forever playing on repeat
No matter how far we are apart
You'll always be a part of our heart
You follow me every where I go
Waving to me as I go
When I see you standing there
Waving banners in the air
Every time I see your smile
It always makes me wanna cry
To see you happy
Cause you're my number one fan
Always around when we need a friend
You help us out when we're feeling bad
Lifting out spirits higher than high
With a love that never says goodbye
No matter how far we are apart
You'll always be a part of our heart
You follow me every where I go
Waving to me as I go
When I see you standing there
Waving banners in the air
Every time I see your smile
It always makes me wanna cry
To see you happy
Cause you're my number one fan
You follow me every where I go
When I see you standing there
Every time I see your smile
Cause you're my number one fan
You follow me every where I go
(Every where, me every where I go)
When I see you standing there
Every time I see your smile
Cause you're my number one fan
You follow me every where I go
(Everywhere I know around the world)
When I see you standing there
(No, oh, no, no, no, oh)
Every time I see your smile
(It always makes me wanna cry, ay, yeah, ah)
Cause you're my number one fan
