

Click Five, All I Need Is You

you're scared
it shows
been there
your not prepared to be
in love
with me
so soon
'cause you've been through enough to have
something hold you back

we dont need to go that far
let's hold on to where we are
if it's real we'll make it through
cause all i need is you

they say
dont waste
your time
they're obviously blind
so let's
forget
the words, the thoughts
they put into your head
don't give up just yet

we dont need to go that far
let's hold on to where we are

if it's real we'll make it through
'cause all i need is you

we dont need the world right now
we've got time to work it out
hold on tight ill hold on too
'cause all i need is...

baby, maybe we should start somewhere
(gotta start somewhere)
and baby, let me in your heart
(let me in your heart)
before we fall apart

we dont need to go to far
let's hold on to who we are
if it's real we'll make it through
'cause all i need is you

we dont need the world right now
we've got time to work it out
hold on tight ill hold on too
'cause all i need is you

all i need is you

all i need is...you
