

Client, It's Not Over

Lost outside
Must be a trick of the light
Don't know wrong from right,
Want it every day and every night
You can't hide
Can't explain, just blame chemistry
On the edge
Fallen from the wasteland
Follow me
Follow me

It's not over
It's not over
It's not over
It's not over

Lost inside
I'm not afraid of the dark
Worlds collide
Feel every beat of my heart
Follow me
Follow me

Never say no
Just say yes to another excess

Follow me
Follow me

Calling, calling
Can you hear me calling?
Falling, falling
Can you see me falling?
