Client, It's Not Over

Lost outside
Must be a trick of the light
Don't know wrong from right,
Want it every day and every night
You can't hide
Can't explain, just blame chemistry
On the edge
Fallen from the wasteland
Follow me
Follow me

It's not over It's not over It's not over It's not over

Lost inside I'm not afraid of the dark Worlds collide Feel every beat of my heart Follow me Follow me

Never say no Just say yes to another excess

Follow me

Calling, calling
Can you hear me calling?
Falling, falling
Can you see me falling?
