

# Client, Where's The Rock And Roll Gone

Hey now now wheres the rock and roll gone?  
Hey now now wheres the rock and roll gone?  
Hey now now wheres the rock and roll gone?  
Hey now now wheres the rock and roll gone?

Whoever said that life was fair  
Numb so you dont have to care  
Sucked dry the same old story  
Relive your fading glory  
All your idols dead and gone  
Still deny theres something wrong  
Watch your soul seek oblivion  
Is this what you call rebellion

Squander chance for depravity  
Your rebel stance turned to apathy  
Waste your youth it had to go  
Cashing in your tortured soul
