

Cliff Richard, Baby You're Dynamite

Explosive Situation

I got no explanation

Love has shout out of the blue - hitting me, and you

It isn't just attraction

It's more a chain reaction

Our love is no ricochet - won't go astray

I can't light the fuse and then retire

Love's got me in it's line of fire

Oo baby you're dynamite

There's never been another love so exciting

Oo baby it's dynamite

You've got the power of thunder and lightning-

You're dynamite

Your lips are so inviting

My senses are igniting

I know our love is here to stay - won't go away

It's bigger by the hour

Loves overwhelming power

Is moving irresistably - through you and me

I can't light the fuse and then retire

Love's got me in it's line of fire

Oo baby you're dynamite

There's never been another love so exciting

Oo baby it's dynamite

You've got the power of thunder and lightning-

You're dynamite

I can't light the fuse and then retire

Love's got me in it's line of fire

Oo baby you're dynamite

There's never been another love so exciting

Oo baby it's dynamite

You've got the power of thunder and lightning-

You're dynamite
