

Cliff Richard, Be In My Heart

What did I ever do for you, that you should die for me
And what did I ever give to you, that you should live in me
Now and forever and always true, your love has found a way
As I was, I am and always will be, will be

Be in my heart, be in my head, be in my soul tonight
Live in my words, let it be said, live in my life tonight

Pray that I never take in vain, the name I hold most dear
His love in very heart of me, casts out all doubt and fear
Now and forever and always true, your love has found a way
As I was, I am and always will be, will be

Be in my heart, be in my head, be in my soul tonight
Live in my words, let it be said, live in my life tonight

Tonight we shall sweetly sleep
Tonight by still waters deep
Tonight for my soul to keep, still waters lead me to your
Still waters, I need to drink of your still waters

Now that I know the kind of love that comes to fill me up
Fill me anew with love from you and overflow my cup
Now and forever and always true, your love has found a way
As I was, I am and always will be, will be

Be in my heart, be in my head, be in my soul tonight
Live in my words, let it be said, live in my life tonight

Still waters running deep
Still waters my soul to keep
Still waters it's your love flowing over me
