

Cliff Richard, Don't Forget To Catch Me

Don't forget to catch me when I fall in love with you
And don't forget to patch my heart, if it should break in two
It's just a dream, but a dream that might come true
Don't forget to catch me when I fall in love with you

Don't forget to be around in case I need you near
And don't forget to listen when I whisper in your ear
I think you know, that's the way it's gonna be
When I fall in love with you and you with me

Now we could be happy, you know I mean happy
Doing the things you do
I'd sit and talk with you
And maybe steal a little kiss or two from you

Don't forget to catch me when I fall in love with you
And don't forget to patch my heart, if it should break in two
It's just a dream, but a dream that might come true
Don't forget to catch me when I fall in love with you

I said, don't forget to catch me when I fall in love with you
Ooh, don't forget to catch me when I fall in love with you
I said, don't forget to catch me when I fall in love with you
