

Cliff Richard, Hold On

Love show me the way when I am lost and hope begins
To fade
Love timeless and true whenever
I need strenght
I look to you
Tonight my faith is strong enough to see me through
Tonight you've got to trust in love the way I do
We gotta hold on tight-tonight

Hold on - nothing's gonna stop us if we just
Believe in love
Hold on - there's nothing under heaven we can't overcome-
Hold on

Now I see the way the tide'll turn and
The part I'll play
(it's) all part of a plan - you don't have to know
Or understand tonight I'll see it all unfold before my eyes
Tonight - with fortune on my side and love to
Guide me
The future is looking bright - tonight

Hold on - nothings gonna stop us if we just
Believe in love
Hold on - there's nothing under heaven we can't
Overcome so hold on
And tho' the road ahead maybe unknown we'll
Make it if we hold on
