

Cliff Richard, I Need Love

If what you said last night is true
Then you don't know me as well as you should
No one could ever be so wrong

And if this look I wear fools you
Well I got a good reason
You see I'm really not so strong

I need love like every other man
Get scared when you turn away
I need love I will do all I can - stay

Now I've seen sorrow felt no pain
I never felt nothing at all
It's not the way I wanna be

And when you're gone these empty hours
Cut me again
What does it take to make you see

I need love like every other man
Get scared when you turn away
I need love and I'll do all I can please stay

Somebody up there likes me
Cause they've opened up the door
You won't see me chasing rainbows anymore

I need love like any other man
Get scared when you turn away
I need love I'll do all I can please stay
