

# Cliff Richard, Magic Is The Moonlight

Magic is the moonlight  
on this lover's dream night  
as I see the moonlight  
shining in your eyes.

Can't resist their power  
in this moon lit hour  
love being any flower  
this is paradise.

Living in the splendour  
of your kiss so tender  
makes my heart surrender  
to your love divine.

Magic is the moonlight  
more than any dream night  
Magic is the moonlight  
for it made you mine.

Living in the splendour  
of your kiss so tender  
makes my heart surrender  
to your love divine.

Magic is the moonlight  
more than any dream night  
Magic is the moonlight  
for it made you mine.

Magic is the moonlight  
for it made you mine.
