

Cliff Richard, Makin' History

Tonight there's a magic that I can't explain

Tune-up and start the show all set now ready to go
This band's gonna really rock tonight
Steppin' out upon the stage
Under those lights again
We're gonna shake the place tonight

They gotta new song high in the charts you know
You must have heard them play it on the radio
When that flat top starts that picking
Hear the bass drum start that kicking
The joint is really jumpin' now
Ooh mama it's so exiting to feel
That tension rising when they turn the house lights down
It's a strange kinda magic that never seems to age

Makin' history
Makin' history
Adding a new leaf to the story that is rock'n'roll
Makin' history
Makin' history
Playing a new beat to the glory
That is rock'n'roll
Rock on

They gotta new song
High in the charts you know
You must have heard them play it on the radio
Hear the start and the jumbo gibson
You don't know what you're missing if you're not
Painting the town tonight
Ooh mama it's so exiting to feel
That tension rising when they turn the house lights down

Makin' history
Makin' history
Adding a new leaf to the story that is rock'n'roll
Makin' history
Makin' history
Playing a new beat to the glory
That is rock'n'roll

Makin' history
Makin' history
Adding a new leaf to the story that is rock'n'roll
Makin' history
Makin' history
Playing a new beat to the glory that is rock'n'roll

Mama it's so exiting-oh oh
Don't you find the beat exiting
