

Cliff Richard, Mean Streak

Well, you stand there honey, with you hands on your hips
Well, its stoppin your feeling, baby, button your lips
Yeah, you stand there honey with the devil in your eyes
You say youre gonna leave me, but I know its a lie
Uh uh honey, you got a mean streak
Uh uh baby, you got a mean streak
Well, if you wanna stay with me, be my lovin honey
You must lose your mean streak
You look so cute and you walk so nice
Oh but your hide is as mean and as cold as ice
Well, I found my heart, it was a big kind of faster
And I know I was living in disaster
Uh uh honey, you got a mean streak
Uh uh baby, you got a mean streak
Well, if you wanna stay with me, be my lovin honey
You must lose your mean streak
Well, youre standing there honey, and youre looking so pretty
Well, Im gonna leave you standing there in a pity
Well, you took my love and you threw it away
And I know whats gonna happen to you someday
Uh uh honey, you got a mean streak
Uh uh baby, you got a mean streak
Well, if you wanna stay with me, be my lovin honey
You must lose your mean streak
Yeah, mean streak
Oh baby, mean streak
Oh honey, mean streak
Oh, mean streak
